

# Europa Platform Hungary is here!

BUDAPEST, 9 MAY 2020

Europa Platform Hungary is a civil initiative that is open to non-governmental organisations and citizens interested in the future of Europe.

It aims to contribute to the successful proceedings of the Conference on the Future of Europe initiative. To this end, it organises wide-ranging information programmes, debates, events, elaborates proposals and engages in dialogue.

We are convinced that the European Union needs to be given a new perspective and this requires profound change. This necessitates on active civic involvement.

Europa Platform Hungary joins the Citizens Take Over Europe initiative launched on 9 May 2020.
